

Core Group For Tibetan Cause- India

Ref: *ITCO/CG/24/2019-20/87*

Date: 9th October 2019

Press Release

As India host the second informal summit between Chinese President Xi Jinping and Indian Prime Minister Narendra Modi at Mamallapuram near Chennai from 11th to 12th October 2019 to discuss upon overarching issues of bilateral, regional and global importance, the Core Group for Tibetan Cause – India, **being the Apex body of all the Indian Tibet Support Groups in India**, bring this to the kind attention of concerned agencies that Tibetan students who have been living and pursuing their studies in that region have been unnecessarily put on house arrest, blockading their usual movement and unwantedly questioned their motives and aspiration.

The Constitution of India ensures us the right to protest against the injustices prevailing hitherto despite any indulgence of political and social powers. The same rights are equally applied to Tibetans as well. Over 60 years of their existence in India as refugee, the successive Indian Government have never crushed their voices, protest in the street against injustices impinged upon Tibetans inside Tibet by Chinese Communist Government and imposed restrictions upon their movement. Whereas, it has been reported in the media (all forms of media) that those aforementioned incidents have been randomly carried out in that region before the happening of Second Informal Summit.

Towards this unwanted act of State Government, the Core Group for Tibetan Cause – India strongly condemn such illicit show of power and administrative machinery that crushes the common people's voice against prevailing injustices.

The Core Group for Tibetan Cause – India also strongly urges the concerned State Government to release those Tibetan students or people immediately without any pre-conditions being levied upon them.

RK Khrimy (Mr.)
National Convener
Core Group for Tibetan Cause-India
